## CAREER OBJECTIVE

---

As a fresh Computer Science Engineering graduate, my objective is to join a dynamic IT team where I can utilize my academic foundation, strengthen my technical expertise, and participate in real-world projects. I aim to contribute effectively to the organization while growing through continuous learning and practical experience.

## SKILLS

---

### Technical Skills:

#### Language & Frameworks

- Java
- C Language
- Javascript
- HTML/CSS

#### Databases

- MySQL
- Oracle
- Sqlite

#### Version Control

- Git, GitHub

## PROJECTS

---

**Local Search Engine:** Local Search Engine that indexes directories and files to efficiently search. It uses TF-IDF algorithm to rank search results quickly. It uses Rust to index files smartly and efficiently. Since Rust is, used 95 percent of memory related bugs are eliminated at compile time. It is mainly geared towards developers and power- users. It supports PDF, docx, ePUB and Programming Languages, and smartly searches over them. Contributed as a Frontend Developer by implementing a simple to use web-interface to the Local Search Engine.

**Post-Quantum Decentralized Blockchain Storage System:** Our storage system's main objective is to protect the data from being exploited by quantum computers, which is currently evolving and being used by many countries. Blockchain is used to record file metadata, handle access control and transactions. Post-quantum algorithms like crystal kyber and crystal dilithium are used to encrypt the files. Rust programming Language is used for backend development. Contributed by developing Frontend and Database in blockchain module.

## EXPERIENCE

---

### Frontend Developer (Intern)

May 2023 - Sep 2023

Light2Speed Pvt. Ltd.

- Worked with a team of 5 to design user interfaces.
- Improved proficiency in JavaScript and React.js.
- Developed a web application integrating social media platform.

Besant technologies

- Learned proper structure to develop web application and applied it in several small projects.
- Improved proficiency in Java,MySQL and Frontend (Html/Css,JS,React.Js)

**EDUCATION**

---

**B.E Computer Science and Engineering**

2021 - 2025

Jerusalem College of Engineering

CGPA : 7.13 /10

**12th Grade** 2020 - 2021

Government Higher Secondary School, Velachery

Percentage : 77 %

**10th Grade** 2018 - 2019

Government Higher Secondary School, Velachery

Percentage : 68.6 %

**EXTRA-CURRICULAR ACTIVITIES**

---

- Active Player in Chess
- Fitness Enthusiast

**LEADERSHIP**

---

- Coordinated and successfully conducted several events within the college for Rotaract club of Jerusalem college as a joint secretary (2023 -2024).
- Part of organizing Inter-College Symposium events conducted by Computer science department at Jerusalem College of Engineering.
